Y2 Newsletter

Volume 1, Issue 1
16/02/2015

The Y2 Blog is up and running
HTTP://Y2YPCC.GLOBAL2.VIC.EDU.AU/

Special points of interest:

- Welcome to the new students and staff who have started here this year.
- Reminder that student booklets need to be returned ASAP.

How to change a bike tyre by Jake

1. Take the tyre off from the rim by using a screwdriver to lift it off.
2. Buy a new tyre from Big W or Kmart. Cost is $10 for a tyre and $5 for a tube.
3. Take the tyre out of the packet.
4. To put the tyre on you have to place one side of the tyre on the rim.
5. You then insert the tube, then put the other side of the tyre on.
6. You will need to pump up the tyre:
   - Mountain Bike = 60psi
   - Road Bike = 120psi
7. You are done!
